En blandning av Svensk kvalitet och Småländsk kreativitet

Smålands Band är inte bara Nordens ledande och mest pålitliga tillverkare av dekorationsband, utan även Nordens äldsta varumärke som står för tradition, genuinitet och ett rent hantverk. Vi har det bredaste sortiment av allmogeband, bomullsband, och linband på marknaden och erbjuder den allra högsta och mest exklusiva kvaliteten på alla våra produkter. Tack vare våra egna designers tar vi kontinuerligt fram nya mönster och designer för att hålla oss i framkant vad gäller dagens trender.

Affärsidé

Smålands Band utvecklar, tillverkar och säljer textilprodukter åt industri- och dekorationsbranschen. Genom att agera, leverera snabbast och alltid hålla högsta möjliga kvalitet, ska Smålands Band inneha en utmärkande position på såväl den inhemska som den internationella marknaden.

Vilka är vi?

Sedan starten 1934 har familjeföretaget Smålands Band alltid legat i framkant när det kommit till tillverkning av vävda textilprodukter och skräddarsydda textila lösningar. Tack vare över 80 års erfarenhet som Sveriges idag äldsta tillverkare av vävda textilprodukter, och även Nordens mest moderna maskinpark, har vi på Smålands Band den bredaste kompetensen och skarpaste precisionen på marknaden inom produktion och utveckling av textila lösningar.

Vi tillverkar allt från dekorationsband, allmogeband och veckband till kraftiga spännband och skräddarsydda lösningar efter kundens önskemål, och självklart sker all vår produktion i Sverige tillskillnad från många andra tillverkare och leverantörer inom samma bransch.

Det vill säga att vi är Made in Sweden, på riktigt.

Välkommen till oss.

Anders Berg

Verkställande Direktör, Smålands Band AB

Made in Sweden

Hos Smålands Band står framtiden i fokus vilket innebär att miljön alltid är en viktig aspekt i åtanke, vare sig det gäller våra leverantörer, vår egna produktion eller den logistik vi använder oss utav. I samarbete med olika miljöinstitutioner och tillsammans med både leverantörer och kunder samarbetar vi för att uppnå minsta möjliga miljöpåverkan.
